## CREAT MISSIONARY CAMPAIGN.

New York, March 16.—Reports received at the headquarters of the National Presbyterian Board of Home Missions in this city tend to show that the board's plan for a one-day whirlwind publicity campaign in the cause of the church and its missionary work has met with gratifying success. This was the date fixed for the simultaneous rallies in cities throughout the country. According to the reports received the plan was carried out in Chicago, Cleveland, Albany, Buffalo, Detroit, Peoria, Baltimore, Cincinnati, Columbus and a number of other cities.

The meetings were addressed by eminent Presbyterian leaders, among them being the Rev. William Henry Roberts, D. moderator of the General Assembly; Rev. Charles L. Thompson, D. D., secretary of the Board of Home Missions; Rev. Charles Stelze, superintendent of the department of church and labor, and the Rev. Thomas Clinton Moffet, specialist on United States Indian problems. Similar programmes were carried out at each of the meetings and modern methods of advertising were employed to attract public attention to the missionary work. The discussions and addresses dealt with the social, the economic, the religious and the general national problems confronting the church in the United States.

## HITCHCOCK NOT GUILTY.

So Decides Jury In the Trial of the Comedian.

ply to questions by Assistant District Attorney Garvin, the girl declared Hitchcock never harmed her and she reiterated the story to the petit jury as she told to the agent of the Children's society. Hitchcock was acquitted.

## AGAINST COMPANIES.

Elkins Act Is Held to Be Applicable to Transportation Anywhere.

Washington, March 16.—The proceedings by the government against the Armour Packing company, Swift & Co., Morris & Co., and the Cudahy Packing company, all of them operating at Kansas City, Kan., under which the companies were each fined \$15,000 by the United States circuit court for the Western district of Missouri on charge of receiving rebates, contrary to the provisions of the Elkins law had been decided by the supreme court of the United States adversely to those companies. The court's opinion announced by Justice Day, who held the Elkins act is applicable to transportation anywhere and the offense is not confined to the initial point. He also held it is applicable alike to the shipper and carrier.

## COUPLE KILL THEMSELVES

Wife Shoots Herself, Husband Swallows Prussic Acid.

Dyersburg, Tenn., March 16.—James S. Harrison and Mrs. Ora Ferguson Harrison are both dead at this place by their own hands. The couple married two weeks ago. Mrs. Harrison, who before her marriage was Miss Ora Ferguson of Dyersburg, on Thursday last shot herself through a lung. No cause is assigned for her act. Her husband was so overcome by her death, which occurred Sunday, that he took prussic acid, which caused instant death. A brother of the husband, W. K. Harrison, was present at the deathbed. Mr. Harrison had a struggle with the suicide, but his efforts to wrest the vial of acid from him were unsuccessful.

## SHOOTS HERSELF IN HEART.

Three Causes are Assigned For the Young Lady's Deplorable Act.

Trenton, N. J., March 16.—Miss Margaretta Borden, daughter of Harry L. Borden, shot herself in the heart as the result of grief. Three causes are assigned for her act. The objection of her father to a young man, who had been calling upon her, worry because her mother is dying of consumption and disappointment over the placing of her two sisters in charge of her uncle at Atlantic City, forcing her to attend to the household duties. "I am tired of it all," she said just before entering her room and firing the shot.

### The Daily Eagle

Entered at the Postoffice in Bryan,  
Texas, as second class matter.

BY CARNES & WALLACE

#### ANNOUNCEMENTS.

The Eagle is authorized to announce  
the following candidates for the of-  
fices indicated subject to the Demo-  
cratic Primaries:

For Congress Sixth District:  
RUFUS HARDY (Re-election).

BRYAN, TEXAS, MARCH 17, 1908

Now that the Fort Worth fat stock  
show is over the lid ought to be taken  
off the fat beef market.

Congressman Hepburn proposes to  
tax the New York stock exchange out  
of existence. A better way is to make  
stock gambling a felony.

Miss Patti McClellan, until recently  
a stenographer at College and popular  
socially, will be married March 31st  
at her home at Hillsboro to Mr. Wil-  
liam Wirt Leake of Dallas.

Language ought to be elastic but  
there is such a thing as stretching  
the meaning of a word too far. A re-  
cent instance is "indiscretion."

The Eagle has never played in the  
role of prophet, but it will risk one  
prediction: Charles A. Culberson will  
have a portfolio in President Bry-  
an's cabinet.

St. Patrick has the credit of exter-  
minating the snakes in Ireland and  
his anniversary would be an auspici-  
ous time to open the campaign against  
the mosquitoes.

The hospitals at Panama have pe-  
titioned to have only old or ugly  
nurses sent for service there. There  
is such a demand for wives that the  
young and pretty ones all marry in  
a short time.

Henry Watterson suggests a lunacy  
commission to try Roosevelt. A good  
idea. In fact, the trial is about to be-  
gin; the American people constitute  
the commission and the verdict will  
be rendered in November.

Some of us remember reconstruction  
days when to be called "loyal" meant  
disloyalty to the most sacred obli-  
gations. Loyalty to principle is better  
than loyalty to party. Loyalty to a  
political machine may be treason to  
country.

A Massachusetts hen was brought  
into court during a trial to determine  
to which of two litigants she belonged.  
Such a little thing as that was  
not to allowed to interfere with busi-  
ness and she deliberately laid an egg  
while the case was on trial.

**SPEAKS IN SAN ANTONIO.**  
President H. H. Harrington of the  
A. and M. College left yesterday for  
San Antonio, where he will deliver

Industry."

#### IMPROVED COTTON.

Mr. J. H. White has received from  
the assistant botanist of the Depart-  
ment of Agriculture the following let-  
ter and report, which speak for  
themselves:

United States Department of Agri-  
culture.

Bureau of Plant Industry.

Fiber Plant Investigations.

Washington, D. C., March 6, '08.

Mr. J. H. White,

Bryan, Texas.

Dear Sir: Enclosed herewith is a  
report on the sample of cotton which  
you kindly sent us last fall.

We shall be very glad to hear  
from you in regard to this report, es-  
pecially if it is unsatisfactory, as we  
expect to use it in the bulletin on  
cotton shortly to be published.

Very truly yours,

FRED J. TYLER,

Asst. Botanist.

Enclosure.

Average weight of cotton seed per  
boll, 5.7 grams. Number of bolls per  
pound, 79-1/2. Average length of  
lint, 25.1 mm. to 29 mm. Per cent  
of lint to seed, 36. Average strength  
of single fibers, 6.9 grams. Weight  
of 100 seeds, 10.24 grams. Number  
of seeds per pound, 4430.

Mr. White informs the Eagle that  
the sample sent was from the last  
picking, which of course, is always  
second. Mr. White has good cause  
to feel proud of the showing made  
in the report and his efforts to im-  
prove the staple and the yield of  
this most important of Texas products  
will doubtless meet with the appre-  
ciation they deserve.

#### ALLEN ACADEMY LOST GAME.

The Allen Academy basketball team  
returned from Houston Sunday. They  
lost the game in that city Saturday af-  
ternoon to the Houston High School  
by a score of 25 to 27. The game was  
played on a slick floor used for danc-  
ing and the Academy boys were un-  
used to it, and did not get their bear-  
ings in the first half, when the score  
ran up to 23 to 11 against them. In  
the second half the Academy boys,  
who clearly have the best team, "got  
onto the curves," or more properly  
speaking, "the sliding," and made a  
second half score of 14 to 4 in the  
Academy favor. This clearly shows  
they would have won the game as a  
whole with a little advance practice  
on the slick rink floor.

## EXECUTIVE RESPONSIBLE

Senator Tillman Deals With, as  
He Terms Them,

### "COLD-BLOOD" FACTS.

Many of the Evils Which Exist Are  
Ascribed as Due to the President, and  
In the Course of His Remarks Makes  
Startling Statements.

Washington, March 16.—Citing what he claimed to be "cold blood" facts, to show executive responsibility for many of the evils which exist, Senator Tillman, in a speech made in the senate today, said:

"In the same category of keeping the work of commerce in the rear breaking to them the hope, if newspapers are to be believed, was even now planning a truce with these same rich malefactors and the president is ready to grant amnesty to them for all past trust offenses. In the most pronounced language he denounced a combination between labor organizations and a boycott, but on the eve of election poured out by the federal treasury."

Mr. Tillman charged many evils in connection with the recent financial flurry to the president and his administration and said: "These are only a few of the achievements of this uncrowned king. With others of his kind he has created a Frankenstein monster, which unsatisfied by the blood of suicide and fears of heart-broken women, threatens to devour and consume his creators who are able to quench his thirst by torrents of gold poured out by the federal treasury."

He charged the senate and house with absolute subservience to the wishes of the chief executive. Mr. Tillman asserted that every effort was being made to control the negro vote.

### JUMPS TO ETERNITY.

Long-Time Government Employee Despondent Over Being Transferred.

Washington, March 16.—Despondent because of his transfer from one substation to another of this city, W. A. ### Tents For Elks

Washington, March 16.—Representative Beall has introduced in the house a concurrent resolution authorizing the war department to loan the Dallas Elks 2,500 tents in which to house delegates to the national convention in July. War department officials and the members of the house military affairs committee favor the request.

### Honor for Noble Lady.

London, March 16.—The freedom of the city of London was bestowed upon Miss Florence Nightingale, organizer of nurses in the Crimea war. The ceremony took place in a large assemblage in the presence of a large assemblage which included actors and nurses. Miss Nightingale is in her eighty-eighth year and was too infirm to attend and was represented by her nephew.

### Soon to Shut Down.

Fort Worth, March 16.—B. C. Vinson, a big coal operator of Oklahoma City, is here. He declares all mines in the new state are preparing to close to avoid the unpleasantness of a strike. He says the shutdown will take place immediately after March 31. Dealers refuse to grant the ten per cent increase the miners ask, claiming they are running without profit and prefer to close voluntarily.

### Bridge Burns Near El Paso.

El Paso, March 16.—The Atchison, Topeka and Santa Fe railroad bridge across a ravine near El Paso caught fire from an unknown source and was destroyed. Firemen were sent from El Paso, but he flames were beyond control. Traffic will be practically tied up until the bridge is rebuilt.
